Definitions

Settled Units	The number of single-family listings settled year-to-date (YTD) through the specified month and year.
Average Settled Price	The average price that single-family listings have settled for year-to-date (YTD) through the specified month and year. Determined by dividing the Total Settled Volume by the number of Settled Units.
Median Settled Price	The median price that single-family listings have settled for year-to-date (YTD) through the specified month and year. Determined by arranging all Settled Units year-to-date (YTD) in numerical order by price and then selecting the middle value.
Total Settled Volume	The total dollar volume of single-family listings that have settled year-to-date (YTD) through the specified month and year.
Avg SPrice / OPrice (Average Settled Price / Original Price)	The average percentage of the Original Price that single-family listings have settled for year-to-date (YTD) through the specified month and year. This number is determined by calculating the Settled Price/Original Price for every listing, summing them and then dividing by the number of settled listings. TREND excludes listings if the Settled Price is greater than 150 percent or less than 50 percent of the Original Price. This ensures the percentage is more representative of listings in the market area.

Notes on Statistics

- All statistics are from TREND's monthly Residential Activity Reports. While each original version of the Residential Activity Report is subsequently updated each of the next two months, any changes will not be reflected in this report. Due to the fluid nature of MLS data, insignificant statistical variations may occur with regard to sales activity between the various TREND reports.
- Mobile homes and condominiums are excluded from these statistics.
- This report includes information on listings and transactions facilitated through TREND and does not reflect the total number of listings and transactions of a given market area.
- All monetary statistics are rounded to the nearest \$10.
